ERA-NET			
SNOWMAN2008	BMLFUW, CA, Coordinator	Support in adapting the running project – project contract amendment.	Extension of the running SNOWMAN project – set-up of new workplan

Projects with support by rtd services in project development and proposal writing – Rated as very good projects but no funding due to limitations in budget availability.

Horizon 2020

Bio-economy			
BioLivLab	Own application (12,5 points)	Network of Living labs in Europe to promote Bio-economy; evaluated above threshold but not funded due to limited budget availability at EU.	
BIOCLOCK	Own application (13,5 points)	Interactive exhibition on bio-economy (13,5 points from 15)	
Food Safety, Animal Health			
SMARTLIVESTOCK (second stage)	Application with universities, industry partners; (12,3 points)	Research & Innovation project to further develop the animal health sector through demonstration projects directly at the farms. Successful at stage 1 (6 projects out of 35); stage 2 ranked no.4, but only one project was funded.	
SME Instrument			
INNOPUMP	Application for an SME in Tirol (13,02 points)	Product development of innovative heat pump. Above threshold but not funded due to limited budget availability at EU. Seal of excellence was issued by the EU Commission.	
TEXT-NEXT	Application for an SME in Tirol (11,4 points)	Product development on process to manufacture carbon elements based on textile material.
